

Invitation to Tender:

Eastbourne Planting Scheme 2025

Details:

Following on from last years success, Your Eastbourne BID would like to commission the re-installation of planters across Eastbourne Town Centre. This will be the period of 2nd of June to October.

At present, we have consent from ESCC to plant 12 planters on the roadside.

We already own the planters which can be reused and are already in the locations specified. The specification and location of these planters can be found overleaf.

The display should be colourful, impactful and hardy enough to survive the sea air and potentially high winds. They should not cause obstruction to pedestrians and vehicles.

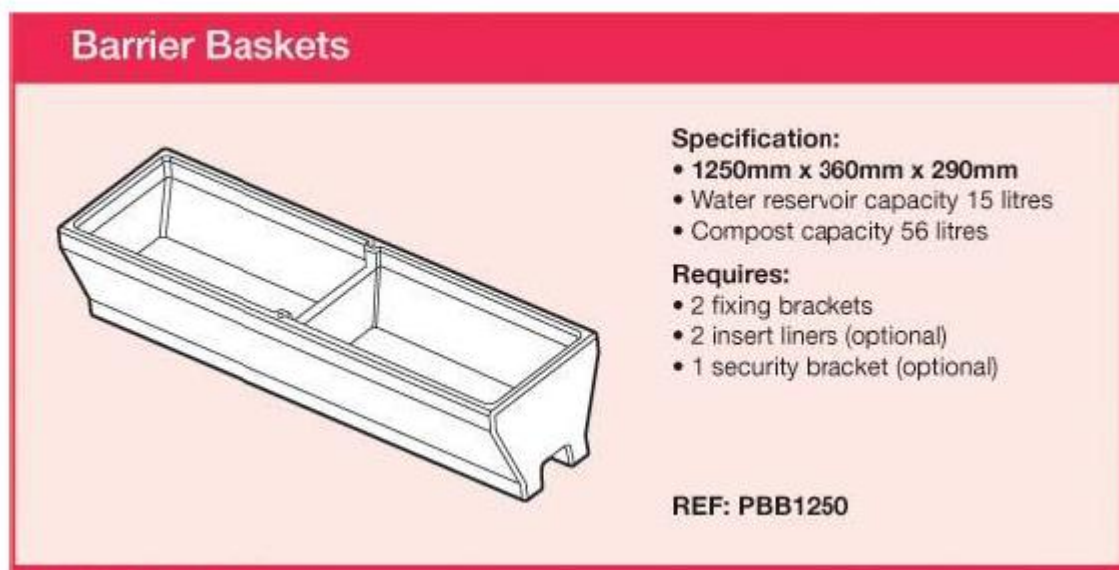

In addition, Your Eastbourne BID currently own 40 wooden planters, which are in storage. We would you to quote for an 'evergreen' planting scheme, which would be low maintenance and look

We will be asking businesses to 'adopt' a planter, so that after the initial spend of planting, there will be no further maintenance planned. Your quote should include prices for one planter, ten planters, and for all forty planters.

Closing date for submission: 12th May 2025.
